

MEQDAD MUHANA

FinTech Specialist | Data Scientist

Bahraini | +973 39019059 | meqdad.muhana@gmail.com | [LinkedIn](#)

PROFILE

A data-driven Financial Technology specialist combining formal training in finance, investment analysis, and information systems with applied Data Science capabilities in Python, SQL and machine learning. Skilled in data mining, predictive modeling, and data visualization through projects spanning portfolio optimization, campaign analytics, and cloud architecture. Brings cross-departmental FinTech industry exposure from Rain Management W.L.L, Bloomberg-certified market knowledge, and strong communication and leadership skills, with a focus on advancing financial inclusion and personalized digital finance in the Gulf market.

HIGHLIGHTED SKILLS

- **Data Science:** Data Collection & Cleaning, Exploratory Data Analysis (EDA), API Integration.
- **Machine Learning & AI:** Regression & Classification, Clustering, PCA, Ensemble Methods, Time Series, Neural Networks, Transfer Learning, LLMs, Generative AI.
- **Programming & Tools:** Python, SQL, Pandas, NumPy, Scikit-learn, BigQuery, Git/GitHub, Java (foundational).
- **Data Visualization:** Matplotlib, Seaborn, Power BI, Excel Modeling.
- **Data Engineering & ML:** Data Modeling, Pipelines.
- **Cloud & Financial Platforms:** Microsoft Azure (Architecture, Security & Networking), Bloomberg Terminal, Refinitiv (LSEG), StockTrak
- **Soft Skills:** Emotional Intelligence, Presentation & Public Speaking, Leadership, Team Collaboration, Communication, Time Management, Working Under Pressure
- **Languages:** Arabic (Native), English (Fluent).

DATA SCIENCE EXPERIENCE

Data Science Bootcamp Fellow | General Assembly, BIBF, Bahrain |

Jun 2026 – Sep 2026

Completed an immersive, full-time Data Science program covering Python, statistics, machine learning, modeling and data visualization through hands-on, real-world projects:

1. Bank Customer Churn Prediction: Capstone Project (Python, Pandas, Scikit-learn, XGBoost, imbalanced-learn): Built a classification model identifying retail-banking customers at risk of churning across 28,382 accounts with an 18.53% imbalanced target. Engineered features, one of which drove 39% of the final model's predictions. Compared Logistic Regression, Random Forest and XGBoost with GridSearchCV and class-weighting, achieving 0.70 recall and 0.84 ROC-AUC.

2. Bahrain Property Rent Prediction: Kaggle Competition (Python, Pandas, Scikit-learn, Pipelines, GridSearchCV): Built an end-to-end regression pipeline predicting monthly rent for 10,578 Bahrain property listings, cleaning numeric fields stored as text and applying a log transform to a target spanning 50 to 400,000 BHD. Engineered high-cardinality location and agency features and tuned a Ridge model via GridSearchCV, reaching test MAE of 100 BHD and reaching R^2 0.77.

3. Which Startups Raise Again? VC Investment Screening Analysis (Python, Pandas, NumPy, Matplotlib, Seaborn): Cleaned and analyzed Crunchbase company records to determine which seed-stage startups raised follow-on funding, engineering a data-driven screen across industry, geography, and timing. The combined screen lifted the historical follow-on rate from ~41% to ~60%.

2. Track Your Plant: Care Management Web App (Python, Streamlit, Pandas): Collaborated in a team

to build a Streamlit application for tracking plants and care history, implementing CSV-based data storage and automated overdue-care alerts calculated from each plant's watering frequency & records.

OTHER EXPERIENCE

Apprentice Intern – Rotational Program, Rain Management W.L.L, Bahrain | Jul 2025

- Rotated across multiple departments at a leading regional FinTech company, building a cross-functional view of how a licensed digital-asset platform operates.
- Mapped operational workflows, compliance procedures, and corporate structure, strengthening understanding of regulated FinTech operations.

Selected Academic & Technical Projects, Bahrain Polytechnic, Bahrain | 2023 – Present

- Investment & Portfolio Optimization (Excel, Bloomberg, Refinitiv/LSEG, StockTrak): Constructed and optimized a diversified portfolio using the Markowitz Efficient Frontier and CAPM with real-time market data, and evaluated risk-adjusted performance using Sharpe, Treynor, and Jensen's Alpha.
- Business Data Mining & Predictive Modeling (RapidMiner): Executed the end-to-end KDD process data preprocessing, visualization, and dimensionality reduction, then built, evaluated, and optimized supervised and unsupervised machine learning models to extract actionable business insights.
- Advertising Campaign Analytics (Power BI, Excel): Analyzed advertising campaign data to identify performance trends, applying descriptive, diagnostic, and predictive analysis.
- Designed and deployed a highly available, 4-tier hybrid cloud architecture on Microsoft Azure, implementing Site-to-Site VPNs, VNet Peering, Azure Firewall, and Private Endpoints.
- Evaluated capital investment projects and firm valuation (Lululemon case study) using NPV, IRR, and WACC, and analyzed working capital management and financial risk from financial statements.
- Designed and implemented relational database systems and ERDs in Oracle SQL Developer, developing advanced PL/SQL triggers, procedures, and packages to automate business logic.
- Proposed an Insurtech aggregator mobile app for NBB, conducting user surveys, market analysis, and CBB compliance mapping, and prototyping real-time policy comparison features.
- Conducted ISO-based information security risk assessments and proposed a full cybersecurity policy covering encryption, data protection, and access controls.

EDUCATION

- **Bachelor of Science in Financial Technology**, Bahrain Polytechnic, Bahrain | **2023 - Present**
- **Data Science Bootcamp (Full-Time)**, General Assembly, BIBF, Bahrain | **Jun 2026 - Sep 2026**
- **Secondary School Certificate (Science)**, GPA 97.1, Al-Noaim Secondary School, Bahrain | **2023**

CERTIFICATION

- **Bloomberg Market Concepts (BMC)**, Bloomberg for Education | **Mar 2026**
- **Environmental, Social, & Governance (ESG)**, Bloomberg for Education | **Mar 2026**
- **Bloomberg Finance Fundamentals (BFF)**, Bloomberg for Education | **Mar 2026**
- **Bloomberg Spreadsheet Analysis**, Bloomberg for Education | **Mar 2026**

AWARDS

- **Selected Participant, Crown Prince's International Scholarship Program (CPISP)**, Bahrain Institute of Banking and Finance (BIBF), Bahrain | **Jul 2022 - Oct 2022**
